

CLASS TOOL

WHITESIDE 2 1/2" BRASS SET UP GAUGES

Quickly and easily make accurate set-ups with this very helpful tool!

5 piece set comes with 1/8", 3/16", 1/4", 3/8" and 1/2" stackable squares which allows for a wider range of sizes. A great way to make exact depth movements on plunge routers. On table routers, they're perfect for setting distances from the fence to the cutter, or for checking the bit height above the table. Recommended by George Vondriska.

This is included with a bundled offered along with the video class Router Table Essentials. It will be shipped to you when you purchase this special bundle.
